

Be the Next Pipette Manager

Evolve your electronic pipette with the VisioNize® pipette manager

Who doesn't enjoy greater freedom and convenience when it comes to pipetting? Be ahead of the curve! Switch to connected electronic pipettes and boost your individual pipetting skills while bringing teamwork up to a new level.

Convert the Eppendorf Xplorer®/ Xplorer® plus pipettes into **connected electronic pipettes**.

VisioNize pipette manager
External touch server establishes communication with connected electronic pipettes and tablets via WiFi technology.

Connect your **tablet** (Android & iOS) to work in parallel with other lab users.

What Connectivity Can Do for You:

Be faster

Quicker input of volumes via the VisioNize pipette manager. All settings will be transferred to connected electronic pipettes for an immediate start of pipetting.

Be more accurate

Get guidance by the software-embedded Liquid Manager when working with liquids of different viscosity, volatility, or surface tension, or foam-building liquids.

Choose from predefined Eppendorf liquid types, e.g. acetone, or create your own liquid types.

Work more closely

Manage your pipette fleet more effectively and enhance collaboration in teams. Integrated features like »Pipette Set Creation« or »Liquid Type Sharing« support smooth and efficient operations.

Evolve Your Electronic Pipettes

Stay flexible with your electronic pipettes!

Easily convert your conventional Eppendorf Xplorer® and Eppendorf Xplorer® plus electronic pipettes into a connected electronic pipette with the WiFi module.

Ordering information

Description	Order no.
VisioNize® pipette manager, an external touch server enabling communication with connected electronic pipettes	1004 000 001
