The 360° Evolution

Eppendorf Combitips advanced®

Eppendorf Combitips advanced®

Time for a New Original!

The invention of the Multipipette and the Eppendorf Combitips marks a milestone in the field of Liquid Handling! Executing long pipetting and dispensing series is remarkably simpler and faster. With innovative sensor technology for automatic Combitip recognition, the Combitips plus/Multipipette system has become an indispensable tool for every laboratory.

The increasingly high demands of modern laboratory work have also heightened the requirements for a high-precision dispensing tip. Our experts have thoroughly optimized the Combitips using sophisticated engineering. The result: a revolutionary 360° evolution! A completely new standard in dispensing tips.

The »Combitips« principle

- > Positive displacement principle (comparable to a syringe)
- > High-precision dispensing regardless of the density and viscosity of the liquid
- > Prevents aerosol contamination with hermetically sealed piston for secure dispensing and provides protection from radioactive and toxic substances
- > Quick dispensing of long series with precise, repeated dispensing of identical volumes (with the Multipipette)

Unmistakable Down to the Last Detail

Intelligent packaging

with the redesigned dispenser box (for »Eppendorf Quality« and PCR clean) with extricable chute, Combitips advanced are always within reach. Portioning in 4 bags (25 pcs. each) ensures dust-free storage.

Unmistakably Eppendorf

The new Eppendorf Combitips advanced also feature the characteristic Eppendorf 3D design on the upper rim of the Combitip, allowing you to easily and confidently recognize the Eppendorf Original!

Variety and selection

With 9 volume sizes (0.1 mL to 50 mL) and 3 purity grades (Eppendorf Quality, PCR clean and Eppendorf Biopur) you will always find the perfect Combitip for your application! The »Biopur« tips are individually blister-wrapped and feature an access tab which makes them easier to open, even with gloves!

A perfect team

Whether Multipipette 4780, Multipipette plus, Multipipette stream or Xstream – the Combitips advanced are optimized for all Multipipette models to create the perfect connection!

Always easy to reach

The new Combitip Rack features trouble-free and single-hand operation during dispensing work. The rack holds up to 8 Combitips advanced in sizes ranging from 0.1 mL to 10 mL. The transparent tray allows for the sizes of the Combitips to be easily identified using the color coding.
