

KIMTECH™

Be Your Best with Kimtech™ Lab Gloves

Working hand in hand to protect
the Scientist and the Science.

 Kimberly-Clark
PROFESSIONAL™

Why KIMTECH™?

Kimberly-Clark Professional™ partners with you to create exceptional workplaces, making them **healthier, safer** and **more productive**. When you work in challenging environments with no margin for error, count on Kimtech™ products to **protect** your critical processes and the people who perform them. We **understand** the risks and costs associated with contamination, Kimtech™ products are designed for **precision** tasks and exacting performance. We partner with you to deliver **seamless, worry-free** performance that minimise risk and maximise performance.

Protect the Scientist

Laboratory Safety is your #1 Priority. Kimtech™ gloves are specifically designed to protect Scientists from Chemical Splash and Micro-Organism Hazards.

- › EN ISO 374-1 Chemical splash protection certification
- › EN 374-4 Resistance to degradation by chemicals
- › EN ISO 374-5 Micro Organism and Virus protection, the highest level of micro-organism protection possible for laboratory gloves
- › Non detectable level of chemical accelerators to mitigate risk of skin irritation

Protect the Science

Protection of procedures and assays from contamination is vital. Contamination costs time, money and credibility.

- › Manufactured to reduce levels of residuals⁽¹⁾
- › Certificates of Analysis available for each production lot⁽¹⁾
- › Non detectable levels of silicone and amide

Assured Compliance

Kimberly-Clark Professional™ makes it easy to demonstrate compliance with Laboratory gloves.

- › PPE Category III Certified for protecting from Chemical Splash and Micro-Organism Hazards
- › Publish Certificates of Analysis (CoA) with every production lot to provide you with assurance of barrier quality and cleanliness of the gloves¹
- › Our website www.kimtech.eu is a rich source of on-line documents, including Technical Data Sheets, Declaration of Conformity and Certificates of Analysis

Kimtech™ Prizm Gloves

Multi- Layered Neoprene Nitrile

- Crafted with a proprietary combination of polymers proven to protect against a wide range of common chemicals
- Ultra fingertip grip helps to reduce risk of drops and breakage accidents, even when wet
- Certified ergonomic comfort ensuring comfort in-use without compromising protection
- Multi-coloured dark violet and dark magenta design to enhance wearer safety by visually identifying mechanical breaches
- Tested against a wide range of cytotoxic drugs
- Nitrile accelerator-free donning layer, reducing the risk of allergic reaction

Designed for Scientists by Scientists, Kimtech™ Prizm™ Gloves provide an unparalleled combination of precision, protection and comfort. These lab gloves are thoughtfully and intuitively designed for higher risk lab environments in the biotech, non-sterile pharmaceutical, and university research fields, where science and safety must work hand-in-hand. Crafted with a proprietary combination of polymers, neoprene and nitrile, proven to protect against a wide range of chemicals. Ultra fingertip grip design helps to reduce drops and breakage accidents in both dry and wet conditions. Certified ergonomic comfort and best-in-class dexterity to ensure user satisfaction without compromise. Environmentally friendly, these gloves are recyclable via The RightCycle™ Programme. The innovative multi-layered technology ensures Kimtech™ Prizm™ disposable gloves are one of the thinnest Type A certified gloves available today.

Our #1 choice for the most demanding scientific applications.

Assured Compliance: PPE Cat III according to Regulation (EU) 2016/425, EN ISO 374-1:2016 Type A (JKLMPT) Chemical Splash protection, EN 374-4:2014 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection.

Kimtech™ Purple Nitrile™ Gloves

- › Featuring high levels of protection, cleanliness and quality.
- › Nitrile construction results in products that are stronger and leaner than latex gloves, and feature better protection against a wider range of chemicals, including cytotoxic drugs.
- › Textured fingertips enhance grip and tactile sensitivity for safer and more efficient processes.
- › Beaded cuffs add strength to the gloves, reducing the risk of tearing and increasing their durability, while also reducing roll down for easier donning and doffing.
- › Contain no natural rubber latex, silicone or powder, reducing the risks of skin irritation for the wearer. Available in two lengths.

Kimtech™ Purple Nitrile™ gloves keep hands comfortable while ensuring a high level of protection and contamination control in challenging life sciences and pharmaceutical manufacturing environments.

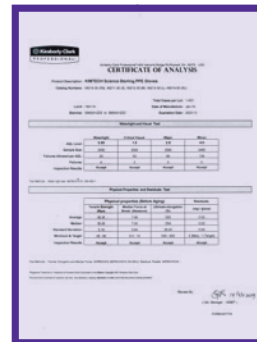

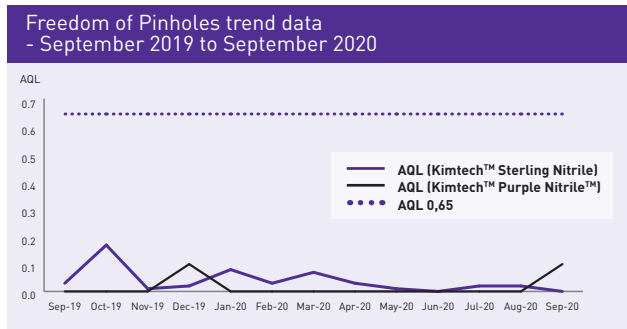

Assured Compliance: PPE Cat III according to Regulation (EU) 2016/425, EN ISO 374-1:2016 Type B (JKT) Chemical Splash protection, EN 374-4:2014 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, Food contact approved

Kimtech™ Sterling™ Nitrile Gloves

- › Manufactured using proprietary Sterling™ technology that combines security and comfort. The efficient, environmentally-friendly construction minimises waste without compromising safety.
- › Nitrile construction results in products that are stronger and leaner than latex gloves, and feature certified protection against a wide range of contaminants while also being food contact approved.
- › Gloves are anti-static tested to protect the wearer and equipment, ambidextrous and grey in colour.
- › Textured fingertips enhance grip and tactile sensitivity for safer and more efficient processes.
- › Beaded cuffs add strength to the gloves, reducing the risk of tearing and increasing their durability, while also reducing roll down for easier donning and doffing.
- › Contain no natural rubber latex, silicone or powder, reducing the risks of skin irritation for the wearer.
- › Available in two lengths.

Kimtech™ Sterling™ Nitrile Ambidextrous Gloves ensure excellent contamination control with innovative, skin-friendly nitrile suitable for a variety of applications. The gloves are powder and latex free, featuring beaded cuffs and textured fingertips.

Assured Compliance: PPE Cat III according to Regulation (EU) 2016/425, EN ISO 374-1:2016 Type C (K) Chemical Splash protection, EN 374-4:2014 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, Food contact approved

Kimtech™ A7 P+ Laboratory Coat

- › High quality disposable laboratory coats with triple stitched seams and breathable, multi-layered material.
- › Enhanced all-round protective features are included, such as high mandarin collars, thumb-loops and extra-length arms to fit lab gloves over coats.
- › The coats are individually packed making them suitable for ISO 7 (Grade C) areas.

With a cloth-like feel and a reduced risk of heat stress, Kimtech™ A7 P+ lab coats ensure contamination control during extensive periods of use. Made from non-woven SMS fabric with triple stitched seams, they are silicone and latex free.

WYPALL®

THE RIGHT TOOL FOR EVERY TASK

WYPALL®

BRAND

WypAll® Paper Wiping Range

Our WypAll® paper wipers excel when a single-use wiper for mopping up spills, cleaning hands and wiping surfaces is needed. The range is separated into Cleaning & Hygiene and Production & Maintenance pillars with task-linked products designed to meet the different needs in each.

Cleaning & Hygiene environments: Restaurants, canteens, Horeca, Offices and Healthcare (wipers tend to be smaller and more portable).

Production & Maintenance environments: manufacturing, metal, garages and service centres (wipers tend to be large with bigger sheet sizes).

Product Description	Code	Ply	Case Count	Sheet size L x W in cm	Dispenser Code

WypAll® X Cloths

The reusable WypAll® X Cloths are absorbent and solvent resistant and strong enough to tackle tough tasks, whilst also designed to be cost and time efficient. Using the patented HYDROKNIT™ Material, WypAll® X Cloths keep their shape and can be used again and again. In addition, the unique PowerPockets technology helps trap dirt and grime quicker and more effectively, leaving surfaces cleaner and reducing waste.

Chemical Permeation Data

Our website is a rich source of data for your business, visit www.kimtech.eu for:

- **Glove chemical permeation data:** from the top menu select “Resources” and then “Chemical Permeation”
- **Certificate of Analysis and Certificate of Irradiation:** from the top menu select “Resources” and then “Certificate”

The screenshot shows a table with columns for 'Glove', 'Chemical', 'Permeation Coefficient (cm³ cm⁻² s⁻¹)', 'Permeation Coefficient (cm³ cm⁻² s⁻¹)', 'Permeation Coefficient (cm³ cm⁻² s⁻¹)', and 'Permeation Coefficient (cm³ cm⁻² s⁻¹)'. The table contains data for various glove types and chemicals, with some cells highlighted in green and yellow.
