## RV 8 pro V Complete

/// Data Sheet

The RV 8 pro V Complete package is the complete solution for your rotary evaporator setup.

In addition to the RV 8 V rotary evaporator, the package includes the HB digital heating bath with a capacity of 4 liters, a highly efficient vertical glass condenser set with 1L receiver and evaporator flask, as well as the the VACSTAR digital vacuum pump with VC 10 lite vacuum controller and the RC 2 lite recirculating chiller. All components and connections required for operation are included.

The RV 8 is the manual basic model in the family of IKA rotary evaporators. It finds a multitude of uses in the chemical,

designed for scientists

pharmaceutical, and biotechnology industries, in research and development, in manufacturing and quality assurance, in laboratories, and in plant construction. Thanks to specially designed glass guides, the vertical condenser makes extremely efficient use of the 1500 cm<sup>2</sup> cooling surface. Digital displays for speed and heating bath temperature enable optimum control of all distillation processes.

The included VACSTAR digital vacuum pump is extremely space-saving and achieves a minimum vacuum of 2 mbar. It is controlled by the supplied VC 10 lite vacuum controller. In addition to controlling the recirculating chiller, the controller also enables manual setting of the vacuum as well as program-controlled operation.

The compact RC 2 lite recirculating chiller with strong 400 watt cooling capacity and a powerful pressure and suction pump (0.35 bar) is designed for simple cooling tasks down to -10 °C. The easily accessible and easy-to-clean mesh filter made of stainless steel ensures a consistently high cooling performance for years. Thanks to the natural refrigerant R290, the RC 2 lite is particularly environmentally friendly and well prepared for the future.

## Technical Data

Type of cooling	vertical
Cooling surface [cm <sup>2</sup> ]	1600
Motor principle	DC
Speed range [rpm]	5 - 300
Speed tolerance set rotation speed < 100rpm [rpm]	±1
Speed tolerance set rotation speed > 100rpm [%]	±1
Lift	manual
Stroke [mm]	120
Heating temperature range [°C]	room temp. - 180
Heat output [W]	1400
Set temperature resolution [K]	±1
Filling volume max. [l]	4
Dimensions (W x H x D) [mm]	510 x 490 x 345
Weight [kg]	25.76
Permissible ambient temperature [°C]	5 - 40
Permissible relative humidity [%]	80
Protection class according to DIN EN 60529	IP 20
Voltage [V]	100 - 240
Frequency [Hz]	50/60
Power input [W]	1500
DC Voltage [V=]	24
