

Material description: SODIUM METASILICATE 5H₂O tech.

CAS No: 6834-92-0

Supplied as: Product code Description
CHE3484 SODIUM METASILICATE 5H₂O tech. 1Kg.

Specification

Parameter	Units	Minimum value	Maximum value	Typical value	Notes
pH; 1% solution	pH			12.3	

Revision date: 01/01/1989

Issue date: 17/09/2024

Specification correct at time of issue but is subject to change without notice. It is the users responsibility to verify the material is suitable for the required application.
